

John A. Rodriguez-Feo, III, MD

Spine Surgery

Dr. John Rodriguez-Feo is a member of The Orthopaedic Center Spine Team. He is a fellowship-trained Spine Surgeon specializing in comprehensive spinal surgical care utilizing minimally-invasive and traditional spine surgery techniques to treat cervical, thoracic, and lumbar disorders. Each surgical procedure is tailored specifically to address the patient's pathology and clinical complaints, while trying to minimize morbidity and patient downtime with examples including motion- sparing procedures, robotic-assisted surgery, scoliosis and deformity surgery, and revision surgical treatment.
